SMT LOA 009Q.docx

SEP 14 LETTER OF AUTHORIZATION

LOA 009 PQ

STUDY MANAGEMENT TEAM (SMT) AND APPROVED VENDORS

October 1, 2012 through December 31, 2012

January 1, 2013 through March 31, 2013

SEP 14 Study Management Team Members are responsible for a number of activities associated with the project including, but not limited to:

1. Project administration and oversight, including schedule and budget
2. Project conformance to the Consent Decree requirements and other EPA SEP guidance
3. Study Design Panel selection
4. Approval of Study Design Panel recommendations
5. Approval and management of contractors
6. Development and management of communication and education plan
7. Development and management of statements of work for authorized vendors.

This Letter of Authorization (LOA) authorizes Members of the SEP 14 Study Management Team (SMT) and Approved Vendors to carry out work authorized by the SMT and charge amounts to the SEP 14 project funds administered by *de maximis, inc.* as described below.

SMT Members receiving hourly compensation for activities authorized by the SMT are provided a maximum of eight (8) billable hours per month unless an agreement exists independent of this LOA expressly providing otherwise.

SMT Members who are employees of either the Tribes or FMC will not receive compensation from SEP 14 funding for their participation (excluding travel related expenses) for SEP 14 work.

SMT Members and Approved Vendors receiving hourly compensation from SEP 14 funds will maintain detailed time records by date describing activities under this LOA and will provide work descriptions in the invoices they submit for their work. The invoices will provide the information required under the *de maximis* invoice template and attach originals (or photocopies if authorized by the SMT) of the receipts for costs submitted for reimbursement.

Each invoice submitted under this LOA shall cover a one-month calendar period and must be submitted not later than the 20th day of the following month to be eligible for payment. In exceptional circumstances the SMT may approve submittal of individual invoices after the 20th day deadline. No charges outside the monthly calendar period of an invoice will be paid. No payment shall be made for hours billed in excess of those

authorized under this LOA unless those hours are approved by the SMT in advance of the additional work proposed to be performed. SMT-approved exceedances must be noted on the monthly invoice. Each vendor shall prepare a separate monthly invoice, which may be submitted for review and payment in conjunction with other invoices at the vendor's option.

All invoices for LOA 009 ~~Θ~~P costs must be submitted (electronically or postmarked) to de maximis for receipt no later than ~~October~~January 20, 2012-2013 to remain eligible for reimbursement from the SEP14 account. LOA 009 ~~Θ~~P will be closed out no later than ~~October~~January 20, 2012-2013.

Reasonable SMT and Approved Vendor expenses associated with the work authorized under this LOA shall be reimbursed and mileage costs for personal vehicle use for non-routine SEP 14 business shall be reimbursed at the prevailing IRS rate.

Re: United States v. FMC Corporation, Civil. No. CIV 98-0406-E-BLW (D. Idaho)
Proposed SEP 14 budget re-allocation

Dear Sirs:

The July 1999 consent decree in the above-referenced action specifies fourteen Supplemental Environmental Projects (SEPs) that FMC Corporation (FMC) agreed to carry out in mitigation of a Resource Conservation and Recovery Act (RCRA) civil penalty regarding FMC's former operation of an elemental phosphorus plant near Pocatello, Idaho. The last of these SEPs, referenced as SEP 14 and entitled *Fort Hall Environmental Health Assessment*, requires FMC to commit a minimum of \$1,650,000 to fund a study of the potential human health effects on Fort Hall Reservation residents from releases from the FMC facility. The consent decree calls for FMC to coordinate with the Shoshone-Bannock Tribes (the Tribes) in managing, planning and conducting this SEP, through means such as joint FMC and Tribal representation on a Study Management Team (SMT) and both FMC and Tribal appointments of scientists to a Study Design Panel (SDP) for study planning and oversight.

This letter is a joint request from both FMC and Tribal SMT representatives that EPA approve a change in the consent decree-specified allocations of the SEP amount among the project tasks. The following lists the categories of SEP 14 project tasks as set forth in the consent decree and the budget allocations for these tasks as approved by EPA in 2010:

Study Planning and Development (referred to as Code A under the accounting system FMC has established for this project)	\$450,000
Implementation and completion of approved assessment/ study plan (Code B)	\$950,000
Implementation of Communication/ Education in accordance with approved plan (Code C)	\$50,000
Study Management Team (Code D)	<u>\$200,000</u>
Total:	\$1,650,000

FMC and the Tribes request that EPA approve reducing the Code A budget amount from \$450,000 to \$400,000, and making a corresponding increase in the Code D budget amount from \$200,000 to \$250,000. The following table presents the current and proposed re-allocated project budget:

<i>SEP 14 Project Element</i>	<i>Current Budget</i>	<i>Proposed Re-Allocated Budget</i>
Code A: Health Study Planning and Development	\$450,000	\$400,000
Code B: Health Study Implementation and Completion	\$950,000	\$950,000
Code C: Implementation of Communication/ Education Plan	\$50,000	\$50,000
Code D: Study Management Team	\$200,000	\$250,000

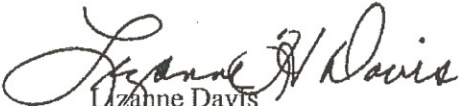

This change is both needed and justified. The change is needed because the funds available under Code D, which provides funding for SMT project administration, are almost exhausted. This is shown in the enclosed table entitled *SEP-14 Budget Cost Tracking Summary*. As set forth in that table, only \$1,773 remained in the existing \$200,000 allocation for Code D as of November 2, 2012. The remaining Code D funds will be depleted in the very near future. Project funds must be re-allocated so that the SMT can continue to carry out the management functions prescribed by the consent decree.

This change also is fully justified, for two reasons. First, FMC as the project proponent with assistance from the Tribal SMT members has exercised close management to focus the project work and minimize inefficiency. In the case of SMT expenses, management measures have included the use of Letters of Authorization (LOAs) to specifically define the authorized tasks, the maximum authorized charges, and the level of information required in the monthly invoices to verify that the charges are within the scope of the LOAs. The drawdown of the Code D funds has been due to the level of management effort required in this project, and not due to the lack of management controls.

Second, providing the needed additional funding to Code D by transferring those funds from Code A is appropriate because the Code A work—for health study planning and development—has been completed. That work was completed when EPA approved the Study Design Work Plan in 2010 and the use of Exponent, Inc. as the health study contractor in 2011. Thus there is no need under Code A for the \$50,370 the enclosed table shows is still allocated to that work. Those funds can be re-allocated to Code D without any impact to the Code A work. Any remaining changes that may be made to the scope of the health studies based on what Exponent reports is an inability to perform two of the studies would remain within the scope of the approved Study Design Work Plan, and would be funded as study implementation costs under Code B.

We look forward to EPA's consideration and approval of this request.

Sincerely,

Lianne Davis
